FLUTED ACRYLIC COLLECTIONS

A B O U T U S

India's first premier Manufacturer of Acrylic Laminates
Skylite Laminates stands as a pioneering force in the Indian industry, being the first manufacturer of high-quality acrylic laminates in the country. With an unwavering commitment to innovation, craftsmanship, and customer satisfaction, Skylite has set new standards in the laminates market.

At Skylite, we combine cutting-edge technology of Italy with artistic finesse to produce a diverse range of premium acrylic laminates that cater to various design needs. Our products are crafted with precision and attention to detail, ensuring unmatched durability and aesthetic appeal.

Driven by a passion for excellence, Skylite continually strives to push boundaries and redefine industry norms. Our dedication to quality, sustainability, and customer-centric approach sets us apart as a trusted name in the realm of acrylic laminates.

We are also one of the leading manufacturer of polycarbonate sheets for various applications. We manufacture Polycarbonate sheets (Solid /Embossed /Crystal), Polycarbonate profiled sheets, Polycarbonate Ventilator Base, Polycarbonate Dome , Polycarbonate Pyramid and Self Drilling Screws. We have developed a wide infrastructural unit that is situated at Barwala Distt Panchkula (Haryana), Baddi (Himachal Pradesh), Bangluru (Karnataka). To inquire about customization options for Skylite laminates, you can reach out to our customer service or sales representatives directly.

Experience the difference with Skylite Laminates - where innovation meets elegance, and quality knows no compromise.

FAQS

& INFORMATION

REASONS FOR AIR BUBBLE FORMATION ON FLUTED ACRYLIC SHEETS

Fluted Acrylic are bonded in extremely humid conditions.

Use of water base synthetic resin adhesive any other than PEVA (Polyethylene Vinyl Acetate Co-polymer).

When substrate loses moisture after installation.

Debonding in certain areas because of uneven substrate surface.

Insufficient or lack of pressing during the bonding period of laminate.

Use of extremely large Acrylic/PVC laminate sheets.

To avoid delamination / air bubbles in between ply and laminate the above steps should be taken care of. Bonding of acrylic sheets shouldn't be completed under high humidity.

NO GUARANTEE IN ANY CIRCUMSTANCES

Like crack, bubble, color fadea and color variation. Please check material when delivered.

- No guarantee & no exchange in any circumstances.
- There can be color variation in material from different batches.
- It is advised to use same batch material to avoid color variations.
- Actual colors of the acrylic sheet may vary from this brochure.

Shake it well and lightly spray on the surface.

Wipe the surface clean using a light circular motion.

Note : Rang warrants that all its products are free from manufacturing defects and perfectly ideal for use in normal conditions. In case of any manufacturing defect Rang is liable for product cost only.

Rang is not liable for any complains in the following cases :

- Colour variation from batch-to-batch production.
- Improper handling of product or any transportation damage.
- Improper installation of product .
- Outdoor applications.
- Exposure of acrylic sheet to direct sunlight.

We are liable only on acrylic product not on plywood, glue and other material for installation.

- It is advisable to check the batch number to avoid colour variation.
- Rang is not liable for any complaints if the product is not properly handled or installed. Maintain according to given guidelines

DO NOT STORE
FLUTED ACRYLIC
SHEET IN ROLL
FORM

- Improper Handling / Transportation / Storage of Litia Fluted Acrylic.
- Improper installation of Litia Fluted Acrylic.
- Improper or unintended usage of Litia Fluted Acrylic.
- Lack of or improper maintenance of Litia Fluted Acrylic.
- Exposure to high temperatures.
- Unauthorized alteration to the products outdoor applications.
- There will be no guarantee or exchange under any circumstances.
- Color variations in products from different batches are possible.
- We recommend using products from same batch to avoid color variations.
- This brochure is for presentation purposes only. Actual colors may differ.

To avoid de lamination / air bubbles in between ply and laminate the above steps should be taken care of. Bonding of acrylic sheets shouldn't be completed under high humidity

DISCLAIMER

Do not use plywood with high moisture content.

Do not use ply with uneven surface Avoid using inferior quality adhesive.

Apply sufficient pressure.

We do not recommend pasting of sheets on the printed/branding area of the plywood.

DO'S & DON'T'S

- Store the laminates below 30°C temperature. To avoid the inside cracks & stretch line, do not store fluted acrylic sheet in roll form.
- Clean the surface of laminate with water and clean, non-abrasive cloth. We recommend cleaning with COLIN glass cleaner and soft Micro fibre cloth.
- Glossy surfaces recommended to use in vertical applications.
- Do not use alcohol based cleaners, solvent, petrol or oil as these may damage the surface of the laminate. Do not use cloth other than micro fibre.
- Do not use thinner on the surface of Litia Fluted Acrylic Sheets.
- Outdoor application of the laminate with exposure to direct sunlight and weather conditions are strict not recommended.
